**IGHS**

INTERNATIONAL GROUP OF HEALTHCARE SERVICES

**PRESENTATION**

# **IGHS** INTERNATIONAL GROUP OF HEALTHCARE SERVICES

**The IGHS Group integrates all the skills and know-how required for the conception, development and management Health projects, whether own or third parties, giving its partners the comfort of having a single, highly qualified entity, responsible for its full implementation and management.**

Headquartered in the city of Coimbra, Portugal, internationally recognized for its University, a UNESCO World Heritage Site and considered one of the oldest Medical Education Institutions in the world, the city of Coimbra is today an important European health cluster, integrating uniquely all sources of knowledge and know-how, necessary for the development of a unique Health Group.

# **IGHS** INTERNATIONAL GROUP OF HEALTHCARE SERVICES

**IGHS GROUP is currently present in different regions of the world, with emphasis on the Middle East, through its subsidiary IDEALMED GHS, which has equity holdings and hospital management contracts in Oman, United Arab Emirates, Saudi Arabia and Qatar.**

On the Asian continent, the **IGHS GROUP** has a presence in the Greater Bay Area of Canton-Hong Kong-Macao (Guangdong-Hong Kong-Macao Greater Bay Area), through its subsidiary **GLOBALMED.**

At the same time, through **INNOV-CELL Therapeutics,** the **IGHS GROUP** has embraced the pharmaceutical sector as a new growth vector, leading projects focused on developing new customized therapeutic solutions.

02.

# **IDEALMED GHS**

PRESENTATION

# IDEALMED

## GLOBAL HEALTHCARE SERVICES

IDEALMED GHS

**IDEALMED GHS operates in the global market and focuses its activity on the development and management of new hospital projects, own or third parties.**

Aware of the specifications and requirements of the health sector, the **IDEALMED GHS** developed a model of vertical integration that allows responses to critical points of management and development of its Hospital Units, obtaining a strong international projection materialized in different invitations to projects worldwide.

# IDEALMED
## GLOBAL HEALTHCARE SERVICES

**IDEALMED GHS associates the huge differentiation of human resources with excellent hospitality reception conditions and with the high sophistication of the technology park installed, materializing innovative projects, highly recognized by the populations and generators of considerable financial gains for their shareholders.**

Having recently inaugurated the Oman International Hospital in the City of Muscat, Sultanate of Oman, **IDEALMED GHS** leads several other projects in the Middle East, in which it privileges collaboration with several internationally renowned Teaching and Business Intuitions.

**IDEALMED GHS** is today internationally recognized as an example of excellence in the management and delivery of healthcare services.

# IDEALMED GHS
PARTNERS

**IDEALMED GHS explores the global market opportunities searching for the best solutions for each project and our customer's needs, following pre-established criteria and thus ensuring the best choice for each situation.**

The health sector's complexity and its demand level, require partnerships with the best and most distinctive stakeholders, such as suppliers/vendors, information technology companies, universities and other academic institutions, hospitals, and R&D centres.

Nowadays, Hospitals have become highly specialized structures, participating in centres of excellence as medical subspecialty units.

This allows the development of singular skills, with high standards in different areas, from layout to a strict definition of operational and functional procedures and solid coordination of human resource management.

## UNIVERSITIES & SCHOOLS

# **IDEALMED GHS**

## KEY ACTIVITIES

# IDEALMED GHS
## KEY ACTIVITIES

**With IDEALMED GHS experience, all steps of the process, from the conceptual phase, to the opening or even management of any healthcare facility, are properly ensured.**

- Feasibility of the Medical Facilities/Hospitals
- Designing of the Hospital
- Engineering and Project Management Advisory
- Complete Medical Equipment of Health Facilities
- Complete Health Care IT Solutions
- Facility Management and Maintenance
- Hospital Staffing
- Continuous Staff Training
- Clinical Research Enhancement
- Complementary Activities
- Marketing /Communication and Commercial Plans
- Complementary Training Human Resources

# FEASIBILITY

## ANALYSIS & PLANNING

**To ensure the viability of any projects, there are a number of initiatives that are mandatory for IDEALMED GHS and must be followed before proceeding with any important commitments:**

- Complete local auditory and analysis (population stats and needs, services, local specifications, legal demands, HRs, etc);
- Strategic health care analysis and planning;
- Option appraisals and planning;
- Financial feasibility and demand surveys;
- Specialties definition;
- Overall Design briefs.

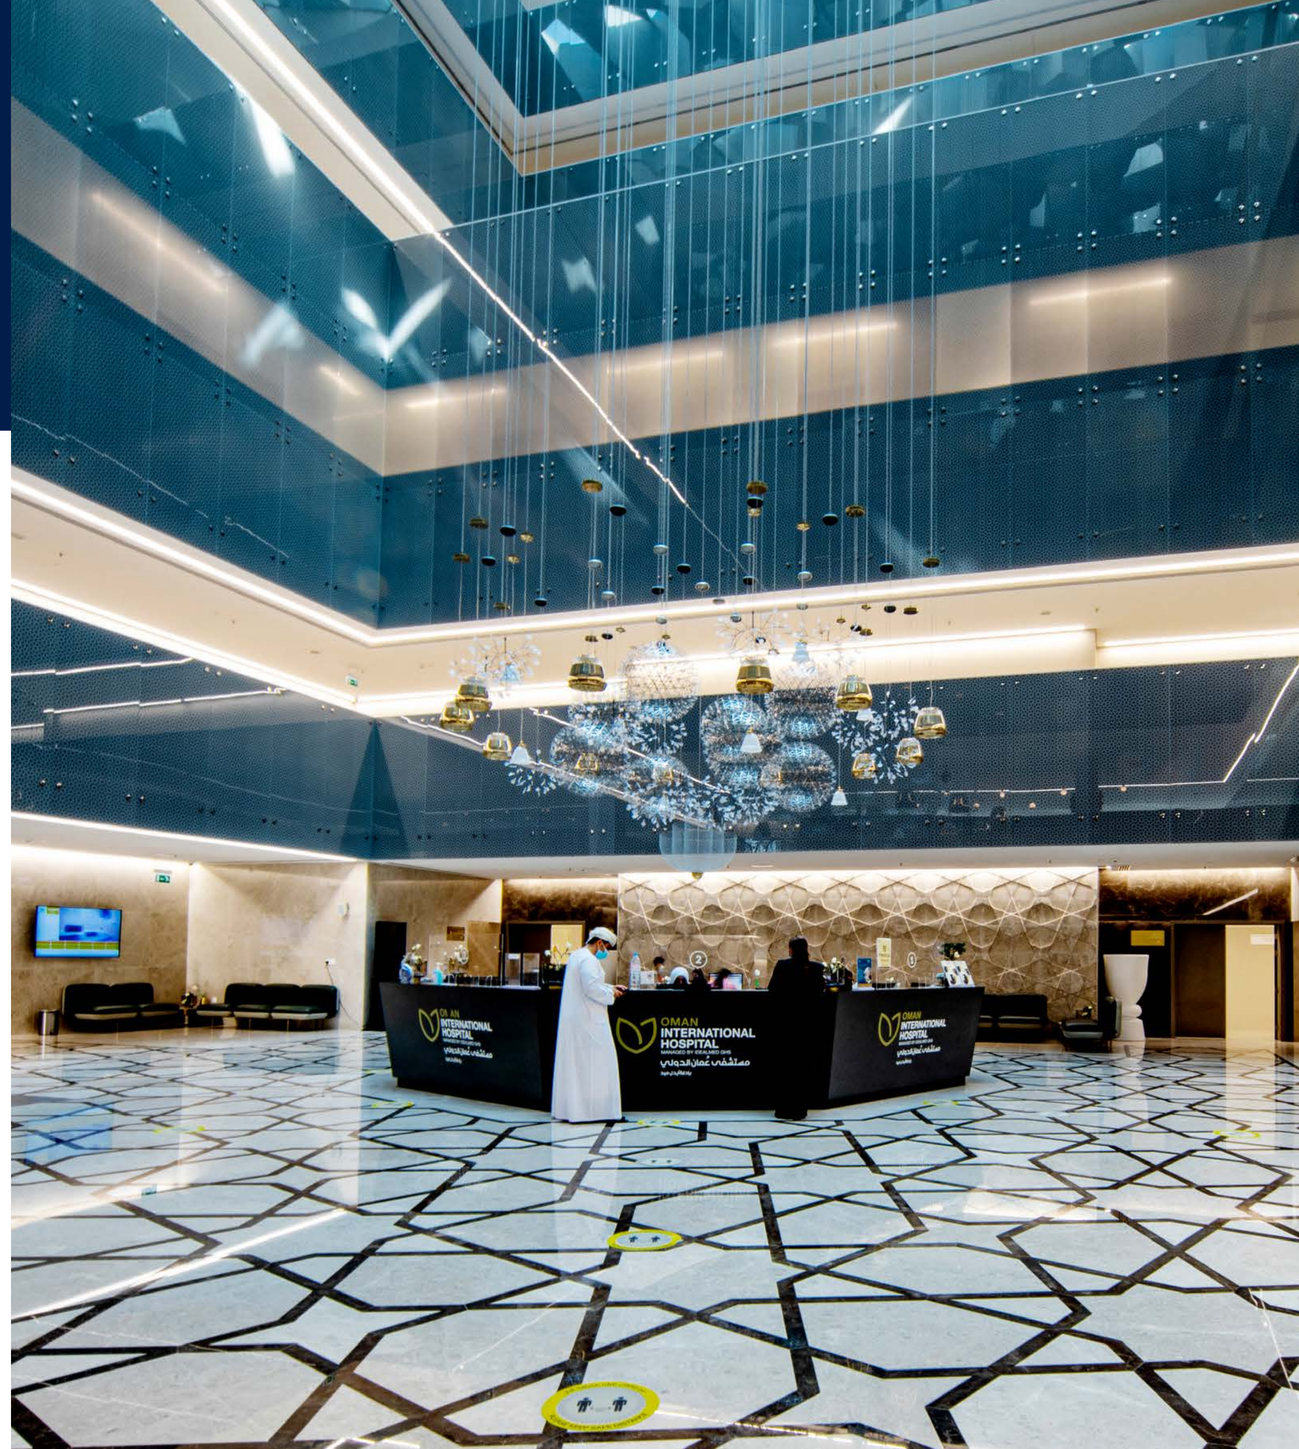

# DESIGN

## MASTER PLANNING & COST OPTIMIZATION

**The scope of our work embraces the elaboration of the architecture and specialties design projects, coordination and works' supervision for the construction of a Healthcare Unit.**

**This provision of services is divided in several stages, including all the domains of coordination, namely the elaboration of architecture and specialties design projects:**

- Architecture;
- Foundations and Structures;
- Water supply and waste water and rain drainage system;
- Electrical and Telecommunication Systems;
- IT;
- Fire protection and Safety in buildings;
- Safety coordination during Design Stage (Elaboration of Health and Safety Plan).
- HVAC Mechanical Systems;
- Transportation Systems (Elevators);
- Medical Gases Network;
- Acoustic project;
- Landscaping;

# ENGINEERING
# & PROJECT MANAGEMENT

## SUPERVISION & COORDINATION

**The proposed technical team has always the necessary know-how to plan the methodology for the execution of the project, to put it into practice, to control and to monitor in order to assure that all objectives and initial requirements are achieved and efficiently satisfied, particularly in terms of delays, costs and quality and safety conditions.**

### Construction Works Coordination & Supervision

- Hospital Construction & Engineering supervision;
- Architectural and engineering coordination;
- Scheduling, staging and installation testing.

# COMPLETE MEDICAL EQUIPMENT

## EVALUATION & COORDINATION

**The choice of medical equipment to install in a new hospital requires deep knowledge of the different existing solutions in the market, taking into consideration the activities to develop and the relationship between quality and price.**

**IDEALMED GHS has the collaboration of experienced professionals in identifying the best solutions.**

### Equipment scheduling & specification

- Departmental and room equipment schedules;
- Tender documentation and evaluation;
- On-site co-ordination and installation supervision.

# COMPLETE IT SOLUTIONS

## INTEGRATED CLINICAL SOFTWARE

**Being on the vanguard of medical services demands the same level of commitment in technology and optimized management through the best and most reliable data. For that purpose and through our partners in IT, we bring to our customers information technology solutions considered unique in the world of clinical so far.**

We take a step into the evolution of Healthcare through a revolutionary digital healthcare platform that creates a single data-flow and operation control through an ecosystem that unites Hospital equipment's, medical, surgical, administrative, financial, ancillary and many more operations under the first total quality healthcare management system.

Complete facilities management and building automation software pack, allowing energy savings and comfort optimization of the Hospital units.

# FACILITY MANAGEMENT & MAINTENANCE

## SUPERVISION, DEVELOPMENT & MANAGEMENT

**Any project, regardless of complexity, requires a rigorous set of rules and procedures, within compliance, so that everything runs as planned:**

- Handover of buildings & equipment supervision;
- Operational policies, procedures & system development;
- Estate management;
- Financial, accounting and billing systems;
- Operation of all medical, nursing, para-medical and auxiliary activities;
- Medical Audit / Quality Assurance.

# HOSPITAL STAFFING

## RECRUITMENT, SELECTION & TRAINING

**The human resources of any organization are of paramount importance for its success. Therefore, the recruitment process, the selection process and the training, are carefully chosen as fundamental for IDEALMED GHS.**

### Equipment scheduling & specification

- Hospital staffing including, doctors, nurses consultants and paramedical staff;
- Total recruitment, selection and training of healthcare personnel;
- Executive leasing of experienced managers for short-term assignments;
- Continuous training in various disciplines
- Local on the job training.

# DEVELOPMENT OF CLINICAL RESEARCH

## INTEGRATION & COORDINATION

**Our team has all the *know-how* and experience to complete each project with the highest quality, but also on time, respecting the budget and all the necessary conditions.**

**To do this, we have:**

- International Research Contracts Subcontracting established network infrastructure;
- Complete management of clinical trials, with coordination of all activities.

# MARKETING
# & COMMERCIAL PLANS

## STRATEGIES

**Communication is crucial to success. IDEALMED GHS proposes a set of strategies and tactics that go through different initiatives in terms of Marketing and Business Plans, involving different players:**

- Development of Institutional Image and Portfolio;
- Development of Institutional Communication Plan;
- Web Media;
- Press Media;
- Institutional Pre-marketing and Marketing Plan;
- Medical notoriety;
- Community notoriety;
- Commercial Plan - Cross actions;
- Insurers;
- Private Institutions.
- Public Institutions

# HEALTH PLANS

## IGHS GLOBALCARE

**GLOBALCARE health plans aims to offer its clients a differentiated access to high quality health services through carefuly selected partnerships.**

The partherships integrating the **GLOBALCARE** health plans offer a wide range of medical and surgical specialties, integrating world class recognized professionals, covering all medical services. Thus offering a reliable, safe, simple, practical, advantageous and broad product.

**IDEALMED GHS**

IT SOLUTIONS

# IDEALMED GHS
## IT SOLUTIONS

**I'mTHOM® is more than an EHR, EMR or HIS. It's a Digital Platform for Healthcare Services and Management that will change the way you work everyday.**

- High performance 24hrs/day;
- Cross-Device compliant;
- Enriched User Experience;
- Modern and atractive design;
- 100% Web and Mobile;
- Covers entirely any Healthcare unit from clinical features to managing and billing;
- Maximized control over activity;
- HL7 and Webservices Integration Protocols;
- Adaptative and customized to any business model;
- Real Time data flow.

# I’mTHOM® 2 GO

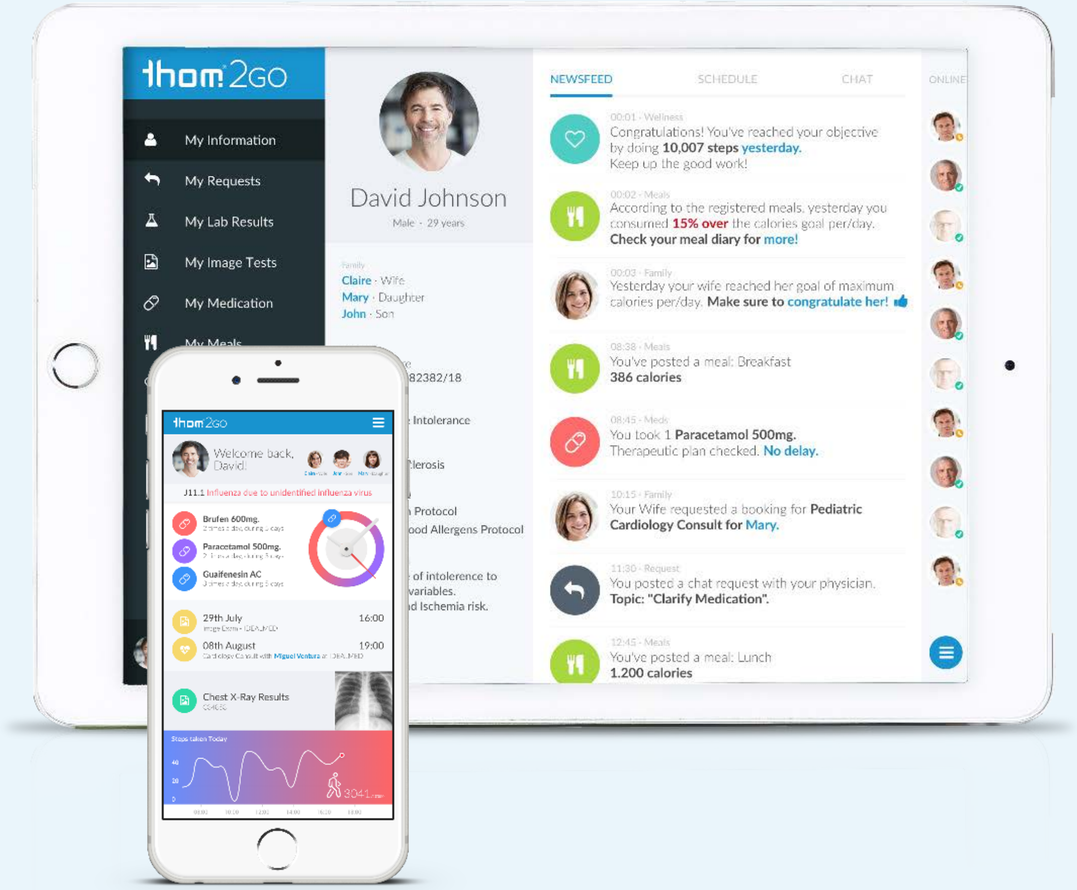

## YOUR PATIENTS CLOSE TO YOU

**I’mTHOM® closes the circle in a gap that will allow you to continuously, provide the best clinical service. Makes the patient part of your operation.**

The patient can:

- Check scheduling and manage his medical calendar;
- Manage his medication intake and provide real-time feedback to the responsible physician;
- Securely share medical information with other physicians;
- Input his lifestyle choices and/or activities so I’mTHOM® can design a profile according to his medical data;
- Request for consultations, exams and laboratory works;
- Establish goals for his health and lifestyle.

**...and much more.**

# I’mTHOM®
# CLINICAL TRIALS

**Clinical trial is intended to find answers to the research question by means of generating data for proving or disproving a hypothesis.**

Clinical Data Management is a critical phase in clinical research, which leads to generation of high-quality, reliable, and statistically sound data from clinical trials.

- Create and manage di erent Studies;
- Manage and record Adverse Events;
- Establish and control a Budget;
- Manage studies Calendar;
- Add to a single DATABASE and Clinical information all Source Documents;
- Create and Manage Rules and Alerts.

05.

# IDEALMED GHS

## ADD-ON SERVICES

# IDEALMED GHS
## ACADEMY

**Through academic partnerships, IDEALMED GHS offers to all the Clinical Network the guarantee of continuous training of all employees: Doctors, Nurses, Technicians, Managers and Others.**

The partnerships with the most prestigious European Universities is a guarantee of International recognition of competence and differentiation of the human resources of the institutions with whom we work.

To further enhance the training quality of our professionals, the Healthcare Unit can support a Medical Simulation Facility, enabling hands-on guided training for the health professionals.

# IDEALMED GHS
## TRAINING

**For IDEALMED GHS, training is fundamental to ensure the continuous exercise of excellence in the execution of all tasks, from the most basic to the most complex.**

**Our training plan is composed of:**

- Preceptorships in Europe for identified needs;
- Annual in house summit of best practices to share different experiences, among doctors, nurses and other staff (such as IT, administrative and maintenance people);
- Regular training on daily basis tasks to ensure the maintenance of high standard quality;
- Regular assessment of activities with evaluation of skills, with the supervision of executive managers;
- Project train the trainer (give the right skills to local team provide future trainings), with remote or on site updates on training;
- Production and distribution, to the population, of newsletters with clear instructions about prevention and correct way of life, to be taken, to avoid diseases (sexual behaviors, basic hygiene, healthy alimentation, etc.);
- Awareness of common diseases to students, with sessions at school, under supervision of specialized medical team.

## IDEALMED GHS
# TELEMEDICINE SERVICES

**Aiming for the best results with efficient spending, the imaging tests analysis and reporting will be performed at a specialized centre allocated to the Support Core of the Healthcare Unit through the use of the latest digital web technology.**

The use of the latest Telemedicine technologies allows world class doctors to review, analyse and consult local patients, producing quality diagnosis and prescribe the adequate treatments, anywhere, at any time.

## IDEALMED GHS
# TOTAL QUALITY MANAGEMENT

**Based on the TQM model, we validate all processes related with the most demanding quality norms enforcement, adding all the certificated activities and implementing rigorous auditing processes to:**

- Equipment;
- Premises;
- Procedures;
- Human resources;
- Financial processes;
- Client satisfaction.

# IDEALMED GHS

## MAIN SCIENTIFIC & CLINICAL PARTNERSHIPS OVER THE WORLD

**IDEALMED GHS has developed a responsible, fruitful and synergic partnership with high qualified and reputed institutions, thereby enabling offering the best-in class solution for any healthcare topic.**

**Among other prestigious institutions, our partnership involves:**

- Harvard Medical School, Boston;
- Coordinated by professor Felipe Fregni;
- Neurology;
- St Davis Hospital, Texas;
- Coordinated by professor Andrea Natale;
- Cardiology.

## MEDICAL ADVISORY BOARD

# IDEALMED GHS
## MEDICAL ADVISORY BOARD

**CARLOS R. CORDEIRO · PH.D., MD, PORTUGAL**
**President of the European Respiratory Society (ERS) and President of the IDEALMED GHS Medical Advisory Board.**

· Member of the Executive Committee of WASOG;
· Chairman of the Scientific Group “Parenchymal Lung Disease” (ERS);
· Visiting Professor at Siena University, Italy;
· President of the Pulmonology Center Congress;
· Holder of several scientific, national and international awards.

**DUARTE NUNO VIEIRA · PH.D., MD, PORTUGAL**
**Full-Professor of Forensic Medicine and Forensic Sciences at Coimbra University and President of the Iberoamerican Network of Forensic Sciences.**

· Vice-President of the IDEALMED GHS Medical Advisory Board;
· Chairman of the Scientific Advisory Board of the Prosecutor of the ICC;
· President of the Portuguese National Academy of Medicine;
· Vice-President of CEREDOC;
· Awarded with 15 scientific prizes and 19 honorary fellowship from universities and scientific associations from all over the world;
· Best World Doctor for Forensic Sciences.

## TIAGO FERRAZ · PH.D., MD, PORTUGAL

**15 years of experience in Ob. Gyn. Clinical Director and Manager of several Healthcare Services in Europe and Middle East.**

· IDEALMED GHS Medical Board;
· Medical Director at Oman International Hospital, managed by IGHS;
· Portuguese College of Obstetrics and Gynaecology;
· Saudi Commission for Health Specialties;
· Irish Medical Council Consultant in Obstetrics and Gynaecology;
· Clinical Research Scholar from Harvard Medical School Program.

## ROBERTO CAYON · PH.D., MD, SPAIN

**25 years of experience in General Surgery practice at several hospitals in Europe and Middle East.**

· IDEALMED GHS Medical Board;
· Department of Surgery at Mouwasat Hospital Dammam, Saudi Arabia;
· Department of General Surgery. Hospital Universitario Quiron Madrid. QuironSalud;
· Department of Surgical Oncology & Laparoscopic Surgery. Hospital La Moraleja (Sanitas Bupa). Spain;
· General Surgery Department. Hospital General de LP. Santa Cruz de Tenerife. Spanish National Health System;
· General Surgery Department. Hospital de Cruces. Baracaldo. Bilbao. Spanish National Health System.

## JOÃO PEIXOTO · PH.D., MD, PORTUGAL

**More than 30 years of experience in Plastic, Reconstructive, Aesthetic & Maxillofacial Surgery. Management of Healthcare Services in hospitals around Europe and China.**

· IDEALMED GHS Medical Board;
· Doctor in Plastic, Reconstructive, Aesthetic & Maxillofacial Surgery - Faculty of Medicine of Lisbon, PORTUGAL, 1975;
· Academic background and experience: Plastic, Reconstructive, Aesthetic Surgery, Hospital Egas Moniz, Lisbon, Portugal, 1986;
· Maxillofacial Surgery;
· Hospital Egas Moniz, Lisbon, Portugal, 1995;
· Hospital Chief Degree in Plastic Surgery, Hospital de S. Marcos, Braga, Portugal, 1997.

# **IDEALMED GHS**

TESTIMONIALS

# ULRICH COSTABEL

## PH.D., MD, GERMANY

· Professor of Medicine and Chief of the Division of Pneumology Allergology at the Ruhrlandklinik in Essen, Germany;
· President of WASOG from 2011-2008;
· Chairman of the European BAL Group since 1998;
· Head of the Clinical Assembly and member of the Executive Committee of the ERS;
· Chairman of the ERS Congress in Munich;
· President Emeritus and the current Archivist of WASOG.

*“The organization that I know and have seen in operation in UHC (Unidade Hospitalar de Coimbra, S.A.), in Coimbra, Portugal, is the example of an ideal, integrated, modern hospital that can be successfully replicated in several parts of the world.”*

# ANDREA NATALE

## PH.D., MD, UNITED STATES

· Executive Medical Director of Texas Cardiac Arrhythmia Institute at St. David's Medical Center in Austin, USA;
· Member of the Cardiovascular Medicine Department at the Cleveland Clinic;
· Head of the Department of Cardiac Pacing and Electrophysiology;
· Medical Director for the Cleveland Clinic's Center for Atrial Fibrillation;
· Member of Food and Drug Administration's Task Force on Atrial Fibrillation.

*"The clinical management model o□ered by IGHS is an added value for any Hospital or Group of Hospitals. Nowadays, it is inconceivable for an Organization to have the most varied competences and capacities in all medical fields and specialties. As such, IGHS's integrating process represents a certainty of success and should serve as aninspiration to modern hospital projects."*

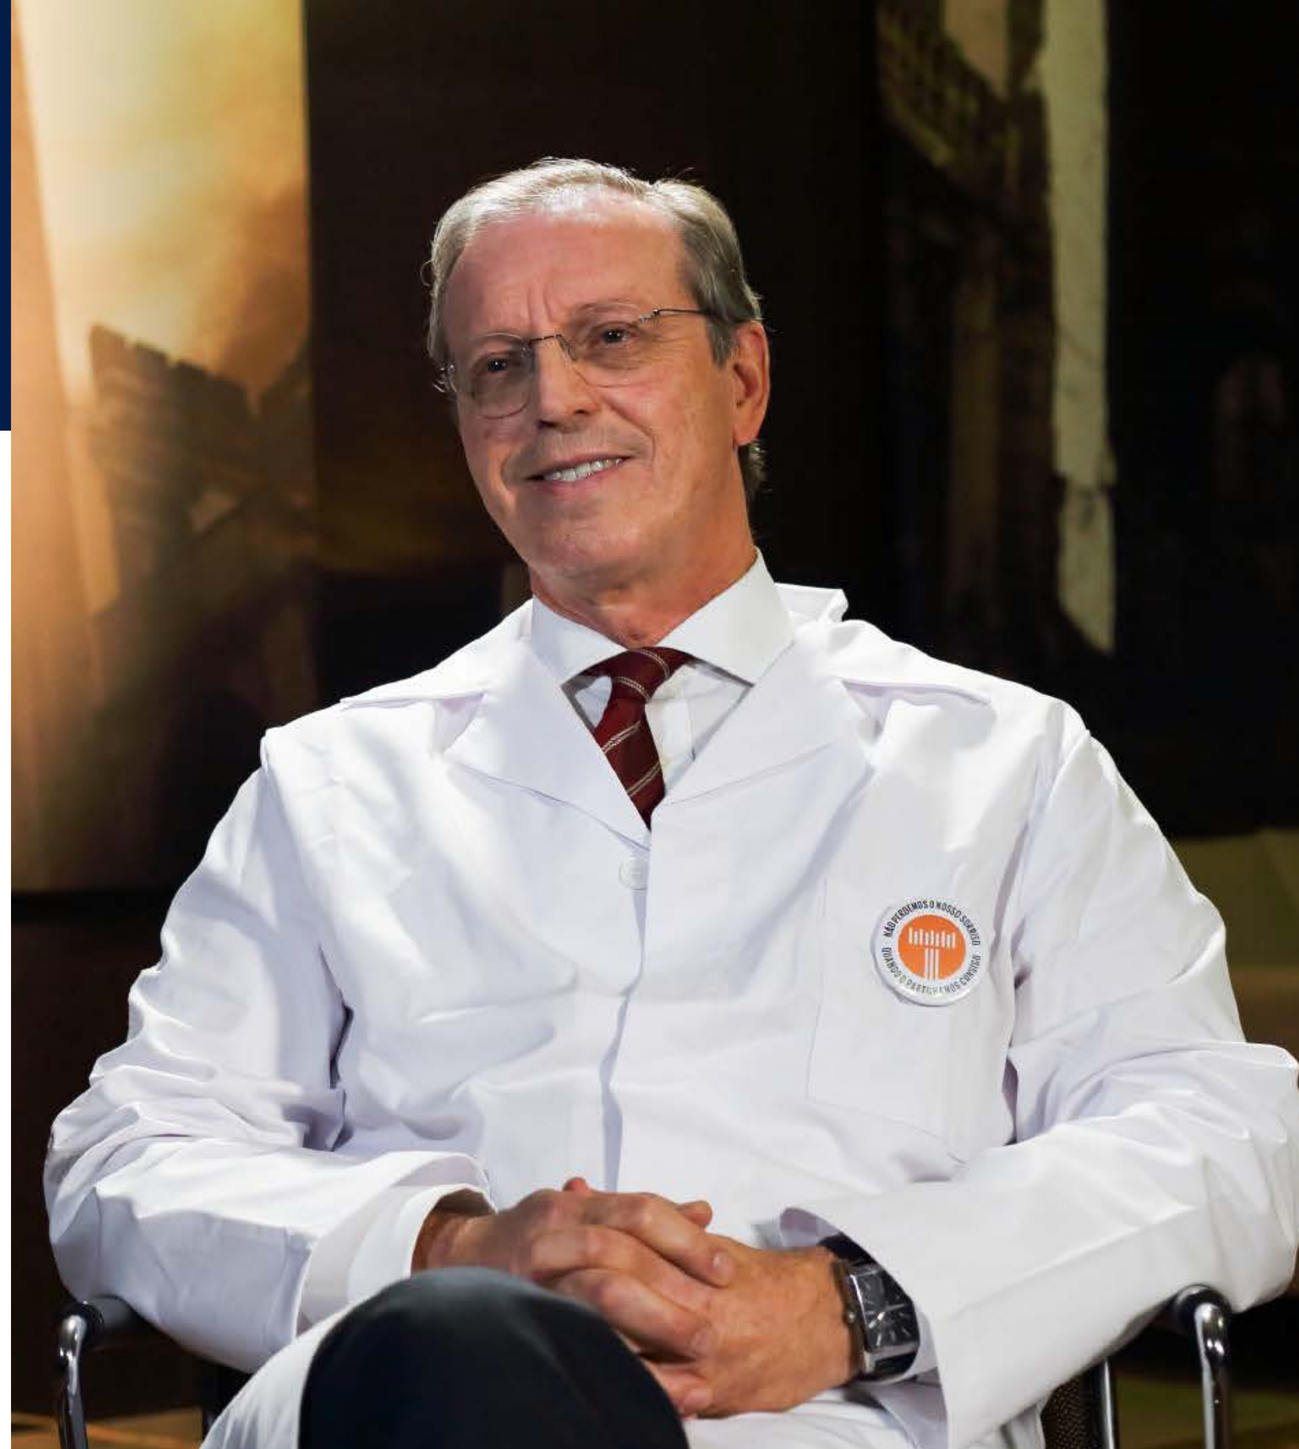

# DUARTE NUNO VIEIRA

## PH.D., MD, PORTUGAL

· Vice-President of the IDEALMED GHS Medical Advisory Board;
· Chairman of the Scientific Advisory Board of the Prosecutor of the ICC;
· President of the Portuguese National Academy of Medicine;
· Vice-President of CEREDOC;
· Awarded with 15 scientific prizes and 19 honorary fellowship from universities and scientific associations from all around the world.
· Best World Doctor for Forensic Sciences.

*“The orientation given to the patient and for the sustainability of the projects, founded on the highly technical, scientific and distinctive contribution of our partners is one of a kind, and a guarantee of innovation in medical services and their management. It is for this reason that this concept is praised and adopted by every one of our international partners.”*

**IDEALMED GHS**

HOSPITALS CENTRES OF EXCELLENCE

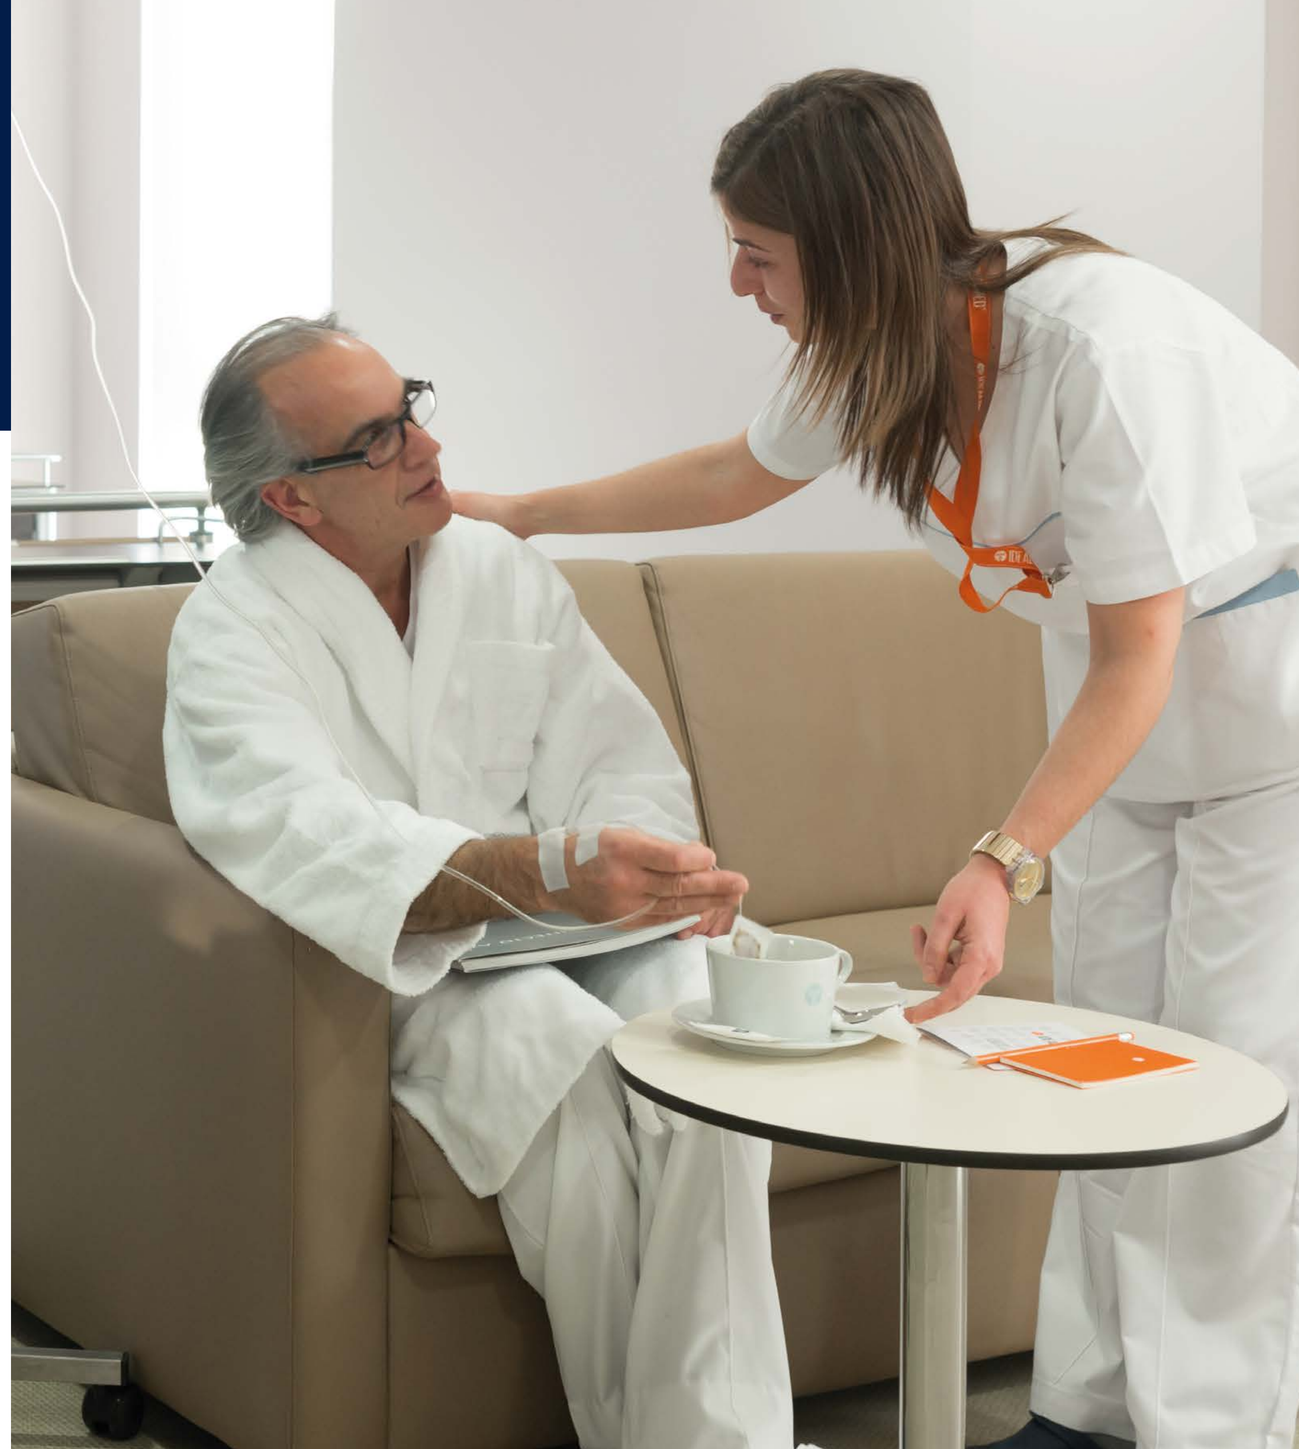

# CENTRES OF EXCELLENCE

## CARDIOLOGY & CEREBROVASCULAR DISEASE

**Cardiovascular and cerebrovascular accidents represent one of the greatest threats to a human being. They are the result of society's modern habits and have become a widespread problem with high mortality, morbidity, and significant recurrence rates.**

These diseases now a□ect more than 1 million patients per 5 million population.

**IDEALMED GHS** has partnered with St. David's Medical Center in Austin (USA) and Cleveland Clinic's Cardiovascular Medicine Department, under the clinical coordination of Professor Andrea Natale, to propose the implementation of all new and available techniques at the Centres of Excellence in Cardiology and Cerebrovascular Disease. This will allow them to guarantee that patients receive e□ective treatment and consequently improve their life quality.

# CENTRES OF EXCELLENCE

## MATERNAL & CHILD HEALTH

**IDEALMED GHS integrate dedicated Mother & Child Center of Excellence in their hospitals. To achieve this, we support ourselves on our partner network, to not only bring the best architectural solutions to the dedicated spaces inside the centres, but also through the cutting-edge techniques carried out throughout our worldwide centres.**

The hospitality conditions for these “clients” is also a key factor to create the proper athmosphere required for a stress-free experience, maximizing the results of the practice, carried by the most trained and experienced health providers, along with the best medical equipment.

# CENTRES OF EXCELLENCE

## ONCOLOGY

**The Centres of Excellence in Oncology represent one of the greatest challenges faced by modern medicine and managers of hospitals that manage them. Due to its diversity, cancer disease demands that hospitals have a considerable number of highly diverse equipment for diagnoses and treatment that require large investments.**

This reality implies that the geographic selection of these centres will be based on very precise studies aimed at maximizing the sustainability and success of these centres, in the eyes of the public. **IDEALMED GHS** replicates in all Centres of Excellence in Oncology the complete range of techniques used in the world's most modern and advanced oncology centres.

These centres offer innovative solutions that significantly reduce the sequels and/or side e□ects caused by traditional treatments, using proper preventive strategies to help reduce the cancer prevalence.

# CENTRES OF EXCELLENCE

## ANTI-AGING

**Human average life expectancy is now longer than ever before, but also faces more problems such as environmental pollution, overeating, obesity and irregular life. Therefore, the anti-aging industry represents a huge market.**

Through a multidisciplinary e□ort, which demands close cooperation of several medical specialties, the Center of Excellence in Anti-aging partners with Clinique de Genolier, in Switzerland, to employ the most modern diagnostic and treatment resources, integrating the following units:

- A Specialized Preventive Medicine Unit;
- A Specialized Men's Health Unit;

# CENTRES OF EXCELLENCE

## PERSONAL HEALTH MANAGEMENT

**According to international statistics, the diagnosis of chronic diseases prevalence rate was 33%.Chronic disease is a serious health threat. This kind of diseases, are a□ecting international economic and social development.**

Human diversity is the greatest challenge in helthcare industry. Therefore, science developed solutions capable of tracking patients problems in real time, and to create intelligent systems to help prevent diseases based on individual's life standards.

The Personal Health Management Unit allows the hospital system to monitor the health conditions of all their patients, 7/24, providing the necessary tools to help them improve their health.

In partnership with IBM, CIBERBIT and ISA, we use online platforms and remote control devices, assuming an active presence in the daily lives of our patients and promoting their check-up upon analysis of their individual needs.

“It always seems impossible until it’s done.”
